

Attachment E: Price and Tariff Class Information for Miscellaneous & Monopoly Charges and Emergency Recoverable Works

Tariff Classes

Ausgrid considers Miscellaneous Services, Monopoly Services, and Emergency Recoverable Works as each a separate tariff class. Table 1 sets out the customers which are allocated to each of these tariff classes.

Table 1: Tariff Classes and the applicable customers

Tariff Class	Applicable Customers
Miscellaneous Services	As defined in Appendix G1 of the Final Determination
Monopoly Services	As defined in Appendix G2 of the Final Determination
Emergency Recoverable Works	Where a person (the customer) is liable to another (which may include the DNSP) for damage which is the consequence of an act or omission of the person. This emergency work is undertaken by a DNSP to repair damage to the distribution system.

Table 2 and Table 4 (on next page) set out the services and charging parameters that apply to the monopoly and miscellaneous tariff classes. These charges are identical to Appendix H.3 and H.4 respectively of the Determination. Table 4 is the applicable labour rate to apply to monopoly services and is identical to that set out in Appendix H.4 of the Determination.

Table 2: Charges for Miscellaneous Services (ex. GST)

Miscellaneous Service	\$
Special meter reading	\$44
Meter test	\$73
Supply of conveyancing information – desk inquiry	\$37
Supply of conveyancing information – field visit	\$73
Off peak conversion	\$59
Disconnection visit (acceptable payment made)	\$44
Disconnection at meter box	\$88
Disconnection at pole top / pillar Box	\$148
Rectification of illegal connection	\$221
Reconnection after business hours	\$95

Table 3: Applicable Labour Rates (ex. GST)

Labour Class	Hourly rate
Admin R1	\$64
Design R2a	\$80
Inspector R2b	\$80
Engineer R3	\$96

Charges for emergency recoverable works

Under appendix H.5 of the AER's determination, the charge that a DNSP may levy for emergency recoverable works must not exceed the sum of the following:

- 1) 110 per cent of the costs (other than labour costs) actually incurred in providing the emergency recoverable works; and
- 2) the cost of labour actually used to undertake the emergency recoverable works determined by applying 150 per cent of the R2 labour rate for that labour (as referred to in Table 4 above.)

Pricing Principles (clause 6.18.5 of transitional chapter the National Electricity Rules)

Chapter 6 of the Transitional Rules require Ausgrid to demonstrate that the expected revenue for each tariff class be between stand alone cost and avoidable of providing the service. The Rules also require Ausgrid to take into account the long run marginal cost for each charging parameter, and have regard for transaction costs and whether relevant tariff class is able to respond to price signals.

These Rule requirements, to the extent that they are applicable to the monopoly, miscellaneous and emergency recovery tariff classes, should be considered as addressed through the implementation of the Determination. As noted above, the tariff Classes (and the services within them) and charging parameters are identical to those set out in Appendices G and H of the Determination.

Table 4: Charges for Monopoly Services (excluding GST)

Monopoly Service	Underground urban residential subdivision (vacant lots)				Rural overhead subdivisions and rural Extensions				Underground commercial and industrial or rural subdivisions (vacant lots - no development)				Commercial and Industrial Developments	Asset relocation or street lighting	
Design Information	Up to 5 lots 6 to 10 lots 11 to 40 lots Over 40 lots		\$159 \$239 \$398 \$478		R2 per hour				R2 per hour				R2 per hour	R2 or R3 per hour (See para 1.4.2 of Final Determination)	
Design Certification	Up to 5 lots 6 to 10 lots 11 to 40 lots Over 40 lots		\$80 \$159 \$239 \$318		1 - 5 poles 6 -10 poles 11 or more poles		\$80 \$159 \$239		Up to 10 lots 11 - 40 lots Over 40 lots				\$159 \$239 \$478	R3 per hour	R2 or R3 per hour (See para 1.4.2 of Final Determination)
Design Rechecking	R2 per hour				R2 per hour				R2 per hour				R3 per hour	R2 or R3 per hour (See para 1.4.2 of Final Determination)	
Inspection of service work (level 1 work)	Grade:	A per lot	B per lot	C per lot	Grade:	A per pole	B per pole	C per pole	Grade:	A per lot	B per lot	C per lot	R2 or R3 per hour	R2 or R3 per hour (See para 1.4.2 of Final Determination)	
	First 10 lots:	\$40	\$96	\$200	1-5 poles	\$48	\$96	\$176	First 10 lots	\$40	\$96	\$200			
	Next 40 lots:				6-10 poles	\$40	\$80	\$159	Next 40 lots	\$40	\$96	\$200			
	Remainder:	\$24	\$56	\$120	11+ poles (See para 1.4.2 of Final Determination)	\$32	\$56	\$120	Remainder	\$40	\$96	\$200			
Access Permit	Residential subdivisions: \$27 per lot combined fee				\$1181 maximum per access permit				\$1181 maximum per access permit				\$1181 maximum per access permit	\$1181 maximum per access permit	
Substation Commissioning					\$886 per substation (See para 1.4.2 of Final Determination)				\$886 per substation (See para 1.4.2 of Final Determination)				\$886 per substation (See para 1.4.2 of Final Determination)	\$886 per substation (See para 1.4.2 of Final Determination)	
Administration	Up to 5 lots 6 - 10 lots 11 - 40 lots Over 40 lots		\$193 \$258 \$322 \$387		Up to 5 poles: 6-10 poles: 11 or more poles		\$193 \$258 \$387		R1 per hour (max 6 hours)				R1 per hour (max 6 hours)	R1 per hour	
Notice of Arrangement	\$193														
Re-inspection (level 1 and level 2 work)	R2 per hour (maximum 1 hour per level 2 reinspection)														
Re-inspection (service provider)	\$80 For the purpose of para 1.2(b), a DNSP may charge a fee that is less than this fee, but not a fee that is more than this fee.														
Access (Standby Person)	R1 per hour														
Authorisation	\$159														
Inspection of Service and Metering Work (Level 2 work)	All Service connections: A Grade : \$20 per NOSW B Grade: \$33 per NOSW C Grade: \$96 per NOSW (NOSW = Notification of Service Work)														
Site Establishment	\$139
