

Undertaking to the Australian Energy Regulator

Given for the purposes of section 59A of the
National Electricity (NSW) Law by Ausgrid (ABN 67
505 337 385), a New South Wales State Owned
Corporation incorporated under the *Energy Services
Corporations Act 1995* (NSW)

1 Person giving this Undertaking

The Undertaking is given to the Australian Energy Regulator (**AER**) by Ausgrid (ABN 67 505 337 385), a New South Wales State Owned Corporation incorporated under the *Energy Services Corporations Act 1995* (NSW), of 570 George Street, Sydney NSW 2000 (**Ausgrid**) for the purposes of section 59A of the NEL.

2 Background

2.1 Ausgrid is:

- (a) a 'Registered Participant' within the National Electricity Market; and
- (b) a 'Distribution Network Service Provider' that engages in the activity of operating a distribution system in New South Wales.

2.2 As a Distribution Network Service Provider, the revenue and pricing of Ausgrid is regulated by Chapters 6 and 6B of the NEL.

2.3 The AER is responsible for the economic regulation of Ausgrid under section 15(1)(f) of the NEL and is given obligations in relation to the making of distribution determinations and the approval of pricing proposals under Chapter 6 of NEL. Ausgrid must comply with the distribution determination that applies to the electricity network services it supplies under section 14B of the NEL.

2.4 The AER made a distribution determination in April 2015 that applies to Ausgrid until 30 June 2019 (**2015 Determination**). The 2015 Determination is a 'reviewable regulatory decision' under section 71A of the NEL. Ausgrid and other third parties applied to the Tribunal for a review of the 2015 Determination under section 71B of the NEL. On 26 February 2016, the Tribunal delivered a judgment in this application (**Decision**). The Decision set aside the 2015 Determination and remitted it to the AER under section 71P of the NEL.

2.5 The effect of setting aside the 2015 Determination on pricing by Ausgrid is uncertain. Ausgrid is required by clause 6.18.2 of the NEL to submit a pricing proposal to the AER for approval each year. The pricing proposal must demonstrate compliance with any applicable distribution determination under clause 6.18.2(b)(7) of the NEL. Ausgrid is required to provide direct control services in accordance with the price of those services under the approved pricing proposal under clause 6.1.3 of the NEL and to provide a statement of network charges calculated in accordance with the NEL and Ausgrid's distribution determination to each retailer under clauses 6B.A2.3 and 6B.A2.4.

2.6 The setting aside of the 2015 Determination also creates uncertainty as to whether the 2015 Determination applies to other non-price matters.

2.7 Rule 6.11.3(b) provides for the previous distribution determination and pricing to continue where there is an 'intervening period' between the end of one regulatory control period and the commencement of a new distribution determination providing for the next regulatory control period. However, it is unclear whether this provision properly applies in circumstances where the 2015 Determination has been set aside.

2.8 This uncertainty may result in Ausgrid breaching its obligations under the NEL and NEL to comply with its distribution determination and to set prices in accordance with the NEL and its distribution determination. The AER may commence proceedings for this potential breach under section 61 of the NEL.

- 2.9 Accordingly, Ausgrid gives this Undertaking to set prices for Direct Control Services and provide services in accordance with its terms. The AER acknowledges that this Undertaking is given in response to concerns about the uncertainty associated with, and the risk of breach of, Ausgrid's obligations in relation to pricing and compliance under the NEL and NER and that its acceptance by the AER will facilitate transparency and stability in network charges in the regulatory year ending 30 June 2017.

The AER is satisfied that this undertaking, and Ausgrid's compliance with it, discharges Ausgrid's obligations in relation to:

- (a) pricing and network charges; and
- (b) compliance with the matters set out in Schedule 2, under the NEL and NER for the Term of the Undertaking.

3 Commencement

- 3.1 This Undertaking comes into effect when:
- (a) this Undertaking is executed by Ausgrid; and
 - (b) the AER accepts the Undertaking so executed, (**Commencement Date**).
- 3.2 On and from the Commencement Date, Ausgrid undertakes to assume the obligations in clause 5.

4 Expiry

- 4.1 Subject to clauses 4.2 and 4.3, this Undertaking expires on 30 June 2017 (**Expiry Date**).
- 4.2 Ausgrid may withdraw or vary this Undertaking at any time, but this Undertaking will be taken to be withdrawn or varied on the date on which the AER consents to such withdrawal or variation in accordance with section 59A of the NEL.
- 4.3 The AER may revoke its acceptance of this Undertaking if the AER becomes aware that any information provided to it was incorrect, inaccurate or misleading.
- 4.4 The AER may, at any time, expressly waive in writing any of the obligations contained in this Undertaking or amend the date by which any such obligation is to be satisfied.

5 Undertaking

Ausgrid undertakes for the purposes of section 59A of the NEL that for the regulatory year ending 30 June 2017:

- (a) Ausgrid's tariffs for each tariff class for Direct Control Services will be as set out in Schedule 1 (**Network Charges**);
- (b) Ausgrid will charge the Network Charges for Direct Control Services to retailers and customers (where direct billing has been agreed under clause 6B.A2.2 of the NER) in accordance with the NER;
- (c) Ausgrid will comply with the 2015 Determination in relation to the matters specified in Schedule 2;
- (d) Ausgrid will publish this Undertaking on its website within five business days of the Commencement Date; and

- (e) Ausgrid will notify the AER in writing within seven days of any failure to charge the Network Charges in accordance with this Undertaking.

6 Acknowledgement

Ausgrid and the AER acknowledge and agree that:

- (a) the Network Charges replace any charges payable to Ausgrid under any previously approved pricing proposal; and
- (b) the process for approving a pricing proposal for the regulatory year ending on 30 June 2017 as set out in rule 6.18 of the NER does not apply to Ausgrid.

7 No derogation

This Undertaking does not prevent the AER from taking enforcement action at any time whether during or after the Term in respect of any breach by Ausgrid of any term of this Undertaking.

8 Costs

Ausgrid must pay all of its own costs in relation to this Undertaking.

9 Notices

- 9.1 Any notice or communication to the AER pursuant to this Undertaking must be sent to:
- | | |
|---------|-----------------------------------|
| Name: | CEO |
| Address | GPO Box 520
Melbourne VIC 3001 |
- 9.2 Any notice or communication to Ausgrid pursuant to this Undertaking must be sent to:
- | | |
|----------|---------------------------------|
| Name: | Company Secretary |
| Address: | GPO Box 4009
Sydney NSW 2001 |
- 9.3 Notices are taken to be received three Business Days after posting (or seven Business Days after posting if sent to or from a place outside Australia).
- 9.4 Ausgrid must notify the AER of a change to its contact details within three Business Days.
- 9.5 The AER must notify Ausgrid of a change to its contact details within three Business Days.
- 9.6 Any notice or communication will be sent to the most recently advised contact details and subject to clause 9.3, will be taken to be received.

10 Definitions and interpretation

- 10.1 Definitions

The meanings of the terms used in this Undertaking are set out below.

Term	Meaning
2015 Determination	has the meaning given to that term in clause 2.4.
AER	has the meaning given to that term in clause 1.
Ausgrid	has the meaning given to that term in clause 1.
Business Day	has the meaning given to that term in the NER.
Commencement Date	has the meaning given to that term in clause 3.1.
Decision	has the meaning given to that term in clause 2.4.
Direct Control Services	has the meaning given to that term in the NER.
Expiry Date	has the meaning given to that term in clause 4.1.
NEL	means the National Electricity Law set out in the Schedule to the <i>National Electricity (South Australia) Act 1996</i> of South Australia, as in force for the time being which, pursuant to section 6 of the <i>National Electricity Act (New South Wales) 1997</i>: (a) applies as a law of New South Wales, and (b) as so applying, may be referred to as the National Electricity (NSW) Law .
NER	means the National Electricity Rules.
Network Charges	has the meaning given to that term in clause 5(a).
Term	means the period commencing on the Commencement Date and ending on the Expiry Date.
Tribunal	means the Australian Competition Tribunal.
Undertaking	this document (including any schedules or annexures to this document) as varied from time to time under section 59A of the NEL.

10.2 Interpretation

In the interpretation of this Undertaking, the following provisions apply unless the context otherwise requires:

- (a) a reference to this Undertaking includes all of the provisions of this document including its schedules;
- (b) headings are inserted for convenience only and do not affect the interpretation of this Undertaking;
- (c) if the day on which any act, matter or thing is to be done under this Undertaking is not a Business Day, the act, matter or thing must be done on the next Business Day;
- (d) a reference in this Undertaking to any law, legislation or legislative provision includes any statutory modification, amendment or re-enactment, and any subordinate legislation or regulations issued under that legislation or legislative provision;
- (e) a reference in this Undertaking to any company includes a company over which that company is in a position to exercise control within the meaning of section 50AA of the Corporations Act;
- (f) a reference in this Undertaking to any agreement or document is to that agreement or document as amended, novated, supplemented or replaced;
- (g) a reference to a clause, part, schedule or attachment is a reference to a clause, part, schedule or attachment of or to this Undertaking;
- (h) an expression importing a natural person includes any company, trust, partnership, joint venture, association, body corporate or governmental agency;
- (i) where a word or phrase is given a defined meaning, another part of speech or other grammatical form in respect of that word or phrase has a corresponding meaning;
- (j) a word which denotes the singular also denotes the plural, a word which denotes the plural also denotes the singular, and a reference to any gender also denotes the other genders;
- (k) a reference to the words 'such as', 'including', 'particularly' and similar expressions is to be construed without limitation;
- (l) a construction that would promote the purpose or object underlying this Undertaking (whether expressly stated or not) will be preferred to a construction that would not promote that purpose or object;
- (m) a reference to:
 - (1) a thing (including, but not limited to, a chose in action or other right) includes a part of that thing;
 - (2) a party includes its successors and permitted assigns; and
 - (3) a monetary amount is in Australian dollars.

Network charges for the regulatory year ending 30 June 2017

Part A – Standard Control Services

The Network Use of System (NUOS) Tariffs to be applied in the regulatory year ending 30 June 2017 are set out in the NUOS pricing schedules below, being the tariffs set out in the approved Ausgrid Distribution 2015-16 Network Pricing Proposal, adjusted to include an amount for changes in the consumer price index in the 2015-16 financial year (calculated consistent with the formula set out in Attachment 14 of the 2015 Determination - Figure 14.1) being 1.51%.

Part A – standard control services pricing schedules (Confidential & Non Confidential) - Attached

Part B – Alternative Control Services

The prices for alternative control services to be applied in the regulatory year ending 30 June 2017 are set out in the ACS Pricing Schedule below, being prices which have been calculated in accordance with Attachment 16 of the 2015 Determination.

Part B – alternative control services pricing schedules (Confidential & non confidential) - Attached

Matters in the 2015 Determination that Ausgrid will comply with

Ausgrid will comply with the 2015 Determination in relation to the following constituent decisions:

1. The Capital Expenditure Sharing Scheme as set out in Attachment 10;
2. The Service Target Performance Incentive Scheme as set out in Attachment 11;
3. The Demand Management Incentive Scheme as set out in Attachment 12;
4. Classification of services as set out in Attachments 13;
5. Ausgrid's procedure for Assigning Retail Customers to Tariff Classes as set out in Attachment 14;
6. Additional Pass Through Events as set out in Attachment 15;
7. Form of Control for Alternative Control Services as set out in Attachment 16;
8. Ausgrid's Negotiating Framework and Negotiated Distribution Services Criteria as set out in Attachment 17; and
9. Ausgrid's Connection Policy as set out in Attachment 18.

Ausgrid Public Lighting

Price List 2016/17

Tariff Classes and Charging Parameters

Ausgrid's Rate Categories are consistent with the Tariff Classes identified by the Australian Energy Regulator (AER) in its Final Determination. Table 2 summarises these tariff classes: All public lighting customers are subject to the tariffs in the AER April 2010 Determination and therefore are defined to be a single tariff class¹. The tariffs that apply to these customers are:

- A fixed capital charge for installed public lighting assets. The fixed capital charges will be provided in confidence to the individual customers to which they apply. This tariff only relates to the capital charges for public lighting assets constructed before 1 July 2009.
- An annuity price per asset type for all new assets. These tariffs and charging parameters are contained in Schedule A. This price relates to the capital charge for new public lighting assets constructed after 30 June 2009, but does not apply to assets where the customer has funded the original construction cost.
- A maintenance price per asset. This tariff relates to the maintenance of each of Ausgrid's public lights. These tariffs and charging parameters are contained in Schedule B.

Pricing Principles (clause 6.18.9 of transitional chapter the National Electricity Rules)

The Tariff Classes (and the services within them) and component prices in Schedule A and B are identical to those set out in Attachment C of Ausgrid's 2014-15 Pricing Proposal April 2014 and they do not include GST. There has been no separate application of the pricing principles in clause 6.18.5 to the prices contained in Attachment C.

Statement on Expected Price Trends

Ausgrid expects the prices contained in Schedule A and Schedule B of this document to change with CPI over the remaining years of the regulatory control period.

^[1] A class of customers for one or more *direct control services* who are subject to a particular tariff or particular tariffs.

Ausgrid Public Lighting

Price List 2016/17

Table 1

Rate Definitions for Assets installed/constructed before 1st July 2009			
AER Tariff Class	Basis of tariff determination	Ausgrid's Equivalent Rate Categories	Applicable Public Lighting Customers
AER Tariff Class 1 applies for assets where capital is funded by the Distribution Network Service Provider (DNSP) before the 1st July 2009 and maintained by the DNSP.	Annual efficient maintenance charge. Capital charge based on approved RAB.	Ausgrid's Existing Rate 1 will continue for assets constructed and installed before 1st July 2009. This applies for assets funded and maintained by Ausgrid. This includes both the capital and maintenance charges.	Public Lighting Customers with components installed before 1st July 2009 which are owned, funded and maintained by the DNSP.
AER Tariff Class 2 applies for assets where capital is not funded by the DNSP instead by the public lighting customer before 1st July 2009 and maintained by the DNSP.	Annual efficient maintenance charge. DNSP not entitled to a return on or of capital.	Ausgrid's Existing Rate 2 will continue for assets constructed and installed before 1st July 2009. This applies for assets funded by the public lighting customer but maintained by Ausgrid. This includes maintenance charges only.	Public Lighting Customers with components installed before 1st July 2009 which are maintained but not funded by the DNSP.
Rate Definitions for Assets installed/constructed after 30th June 2009			
AER Tariff Class 3 applies for assets where capital is funded by the Distribution Network Service Provider (DNSP) after 30th June 2009 and maintained by the DNSP. The DNSP will be entitled to charge an annual capital and maintenance charge.	Annual efficient maintenance charge (same as for AER Tariff Class 2). Annual capital charge (return on and of) based on efficient material and installation costs.	Ausgrid's Existing Rate 1 will continue for assets constructed and installed after 30th June 2009. These are identified as P09 against Ausgrid Rate 1 tariff category in the information provided along with the bills to public lighting customers. This applies for assets funded and maintained by Ausgrid. This includes both the capital and maintenance charges.	Public Lighting Customers with components installed after 30th June 2009 which are owned, funded and maintained by the DNSP.
AER Tariff Class 4 applies for assets where capital is not funded by the DNSP instead by the public lighting customer after 30th June 2009 and maintained by the DNSP.	Annual efficient maintenance charge (same as those for AER Tariff Class 2). DNSP not entitled to a return on or of capital.	Ausgrid's Existing Rate 2 will continue for assets constructed and installed after 30th June 2009. These are identified as P09 against Ausgrid Rate 2 tariff category in the information provided along with the bills to public lighting customers. This applies for assets funded by the public lighting customer but maintained by Ausgrid. This includes maintenance charges only.	Public Lighting Customers with components installed after 30th June 2009 which are maintained but not funded by the DNSP.
Rate Definitions for Assets installed/constructed before 1st July 2009 or after 30th June 2009			
AER Tariff Class 5 applies for assets where capital is funded by the DNSP but replaced at the request of the customer before the end of its economic life.	Tariff calculated by the DNSP at the time of agreement to replace the asset early using an agreed method for determining the residual capital value of the asset. The charge is to be paid up front. Residual asset charge calculated for replaced asset based on remaining life determined through an assessment of the assets condition and/or type or the AER default value.	Ausgrid does not have a separate Rate category, existing Rate 1 and Rate 2 will continue to apply for new assets as appropriate.	Public Lighting Customers with components either installed before 1st July 2009 or after 30th June 2009 which are owned and maintained by the DNSP, and are replacing components that have not reached the end of their economic life.
