1. INTRODUCTION

The 2008/09 Excluded Distribution Services (EDS) Price Schedule outlines prices for the provision of services ancillary to the main network services requested by either: customers and registered contractors / builders / developers; and retailers. The schedule applies from 1 July 2008 or as subsequently revised.

2. SERVICE CATEGORISATION

ENERGEX provides a broad range and standard of service at the explicit request of retailers and end-use customers. For ease of reference the services have been grouped into the following categories:

- Additions and Alterations;
- Callout Charge;
- De-energisations;
- Design Fee/Deposit;
- Meter Investigation;
- Meter Reconfiguration;
- Metering;
- Miscellaneous;
- New Connection;
- Re-energisations;
- Special Reads;
- Street Lighting Work;
- Supply Abolishment; and
- Unmetered Supply.

The services performed in the above listed categories are provided on a fee for service basis where the price charged will be either:

- A Scheduled Fix Fee if a standard service has been requested; or
- A Price on Application (POA) if a non-standard service has been requested.

A non-standard service is a service that is not considered standard due to the variation in the scope, timing and complexity of the work requested.

Conditions and prices pertaining to services provided are outlined in further detail below.

3. STANDARD EXCLUDED DISTRIBUTION SERVICES

Detailed below are the conditions and prices applicable to standard EDS.

3.1 Conditions applicable to Standard Excluded Distribution Services

Completion of service requests by ENERGEX will occur in accordance with the requirements of Chapter 5 of the *Electricity Industry Code: Third Edition*.

For connection points with a NMI classification code of 'Large' the service request will be carried out by ENERGEX in accordance with the time frames agreed between the parties. For connection points with a NMI classification code of 'Small' the service request will be carried out by ENERGEX in accordance with the time frames for each particular type of service classification, as outlined below.

3.1.1 Additions and Alterations to Customer Connections

Additions and Alterations (Ads and Alts) service requests can arise for a large number of reasons related to making a physical change to the supply at a given connection point. ENERGEX provides the following standard Ads and Alts services:

- Exchange Meter¹
- Install Meter²
- Overhead Service Replacement – Single or Multiple Phases

ENERGEX undertakes to complete requested work within 10 business days of:

- Receipt of a valid service order request; and
- Receipt of all relevant documentation – i.e. Form 2

Ads and Alts services will not be completed unless ENERGEX has received a Form 2 from the customer's electrical contractor.

3.1.2 Callout Charge

A callout charge service arises where ENERGEX attends a customer's trouble call and finds fault in the customer's installation. This includes tripped safety switch, internal fault, customer overload, etc.

3.1.3 De-energisations

A Retailer may request ENERGEX, as a service provider to de-energise a Connection Point for a variety of reasons. These include:

- Where the Retailer has grounds to proceed with a De-energisation for non-payment (e.g. where a customer has failed to meet their obligations under jurisdictional rules);

¹ This service is provided during business hours only.

² This service relates to specific requests by customers to install the meter either after hours or as a priority anytime.

- The customer requires a temporary disconnection of supply because the site is to be left vacant for a time; or
- The customer is moving out of a premise and no new tenant has requested supply at the same address.

De-energisation methods may involve:

- Removal of fuse;
- Disconnection at pole top, pillar box or pit; or
- Application of sticker to the meter.

ENERGEX provides the following standard De-energisation services:

- Pillar box, pit or pole top³;
- Remove fuse³;
- By sticker; and
- De-energisation requiring planned notification.

De-energisations are performed by ENERGEX in business hours only.

ENERGEX undertakes to complete the requested service within 6⁴ business days of receipt of a valid service order request for all premises excluded premises in excluded locations⁵. For premises located in excluded locations the requested service will be completed within 10 business days.

A De-energisation for a small customer will not take place:

- After 3:00pm on a business day;
- On a Friday or a day before a public holiday⁶;
- On a weekend or a public holiday;
- Between 20 December and 31 December (inclusive).

3.1.4 Meter Investigation

A service request to investigate the metering at a given Connection Point can arise in two circumstances:

- A customer raises a request with the Retailer where the customer believes that there is a problem with the metering installation; and
- Where the Retailer requests an investigation on the grounds of: suspected fraud and/or tampering; or consistent abnormal metering readings suspected to be caused by a faulty meter.

³ This service may be requested for debt or change of occupancy.

⁴ This is subject to the transitional provisions in clause 5.7.3(e) of the *Electricity Industry Code: Third Edition*.

⁵ Excluded locations are specified in Appendix 2 to this price schedule.

⁶ Public holiday means a Queensland wide public holiday and a local holiday in the district where the premise is located.

A meter test where ENERGEX checks that the metering installation is accurately measuring the energy consumed is provided during business hours only. ENERGEX undertakes to complete the service request within 15 business days of receipt of a valid service order request.

3.1.5 Meter Reconfiguration

A meter reconfiguration service request arises where a Retailer requires to reprogram the meter at a given Connection Point to reflect a tariff or time switch change to the customer. ENERGEX provides the following standard meter reconfiguration services:

- Change Tariff; and
- Change Time Switch

The above listed services are performed by ENERGEX during business hours only. ENERGEX undertakes to complete the requested work within 20 business days of receipt of a valid service order request.

3.1.6 Miscellaneous

A miscellaneous service request can arise for a number of reasons and consists of services which are not covered under the other type of service requests. ENERGEX provides the following standard miscellaneous services:

- Additional crew;
- Locating ENERGEX underground cables⁷;
- Wasted truck visit⁷; and
- Additional communication charge⁷.

The timeframe to complete requested work will depend on the type of work requested and will be subject to commercial negotiation between the distribution entity and the retail entity after receipt of a valid service order request.

3.1.6 New Connections

A service request to arrange a new supply connection at a specified address can arise in a number of circumstances, including:

- A customer moving into a new premise which currently does not receive an electricity supply; or
- A builder wishes to provide permanent or temporary supply to new properties under construction.

ENERGEX provides the following standard new connection services:

⁷ This service is provided during business hours only.

-
- Underground permanent supply⁸;
 - Overhead permanent supply⁹;
 - Temporary connection⁹;
 - Temporary in Permanent¹⁰.

ENERGEX undertakes to complete requested work within 5 business days of:

- Receipt of a valid service order request; and
- Receipt of all relevant documentation – i.e. Form 2.

New connections will not be completed unless ENERGEX has received a Form 2 from the customer's electrical contractor.

3.1.7 Re-energisations

A service request to re-energise a connection point may arise where a customer:

- Is moving into a premise;
- Has previously requested that a supply be temporarily de-energised and now wishes the supply to be restored; or
- Has been disconnected for non-payment.

ENERGEX provides the following standard re-energisation services:

- Re-energisation after disconnection for non-payment¹⁰;
- Re-energisation after disconnection for non-payment (visual)^{10, 11};
- Re-energisation visual¹⁰; and
- Re-energisation - read required¹²

ENERGEX undertakes to complete the requested service on the same business day where a valid service order request is received by 1:00pm on a business day. Otherwise the work will be completed by the next business day. These timeframes are for all premises except those premises in excluded locations¹³. For premises in excluded locations the service request will be completed within 10 business days of receipt of a valid service order request.

For safety reasons, re-energisation services requiring a visual safety examination will only be undertaken within daylight hours.

⁸ This service relates to a specific request by customers to undertake connection of supply either after hours or on a priority anytime.

⁹ This service is provided by ENERGEX during business hours, after hours or on an anytime basis.

¹⁰ This service relates to a specific request by customers to undertake connection of supply either after hours or on a priority anytime.

¹¹ A visual safety examination is required for re-energisations after disconnection for non-payment if: the connection point has been de-energised for greater than 1 month; and/or there has been a change of customer or retailer at the premise.

¹² This service is provided during business hours only.

¹³ A list of excluded locations is provided in Appendix 2 of this Price Schedule.

3.1.8 Special Read

A special read request arises for manually read metering where an out of cycle reading is required.

ENERGEX undertakes to complete the requested work within 4 business days of receipt of a valid service order request.

All special reads are performed within business hours only.

3.1.9 Street Lighting Work

ENERGEX provides a range of standard street lighting work services, including:

- Standard luminaire glare screening - internal;
- Adhesive luminaire glare screening;
- Unique luminaire glare screening – external; and
- Replacement of standard luminaire with aeroscreen units.

The time frame for completion of service request will depend upon the work requested and will be subject to commercial negotiation between the distribution entity and the customer.

3.1.10 Supply Abolishment

A supply abolishment, where the NMI and all the associated metering is decommissioned, may be requested for a variety of reasons, such as:

- A property is to be demolished or its usage changed and a supply is no longer required; or
- An alternative connection point can be used and the redundant supply is to be removed.

ENERGEX undertakes to complete the service request to abolish supply at a given connection point within 20 business days of receipt of a valid service order request.

For supply abolishment service orders, Retailers must ensure that a Form 1345 (available from ENERGEX's website) is completed and returned to ENERGEX. This form should be faxed or emailed at the same time as lodging the supply abolishment service order request.

3.1.11 Unmetered Supply

ENERGEX provides a range of standard unmetered services. These include:

- Unmetered supply connection – connection point not available;
- Unmetered supply disconnection; and
- Temporary unmetered supply

The timeframe for completion of service requests will depend on the work requested and will be subject to commercial negotiation between the distribution entity and the retail entity after receipt of a valid service order request. All unmetered service requests are undertaken during business hours only.

EDS PRICE SCHEDULE - 2008/09

3.2 Prices applicable to Standard Excluded Distribution Services

Prices for standard EDS are provided in the table below:

NETWORK PRICES FOR STANDARD EXCLUDED DISTRIBUTION SERVICES - BUSINESS HOURS											
Service Information			General			No CT			CT		
Class	Service	Service Description	Product	Price (exc GST)	Price (inc GST)	Product	Price (exc GST)	Price (inc GST)	Product	Price (exc GST)	Price (inc GST)
Adds & Alts	Exchange Meter	Exchange of one meter for another				AAEM1M	120.40	132.44	AAEM2M	337.20	370.92
Adds & Alts	Install Meter	Installation of a single new meter (except for a hot water meter)									
Adds & Alts	Move Meter	Meter requires relocation				AAMM1M	120.40	132.44	AAMM2M	337.20	370.92
Adds & Alts	Overhead Service Replacement, Single Phase - 1 visit	To recover and replace an existing overhead service at customer's request. No material change to load.	MSRO1P1	192.70	211.97						
Adds & Alts	Overhead Service Replacement, Two Phase - 1 visit	To recover and replace an existing overhead service at customer's request. No material change to load.	MSOR2P1	240.80	264.88						
Adds & Alts	Overhead Service Replacement, Three Phase - 1 visit	To recover and replace an existing overhead service at customer's request. No material change to load.	MSOR3P1	289.00	317.90						
Adds & Alts	Overhead Service Replacement, Single Phase - 2 visit	To recover and replace an existing overhead service at customer's request. No material change to load.	MSOR1P2	404.60	445.06						
Adds & Alts	Overhead Service Replacement, Two Phase - 2 visit	To recover and replace an existing overhead service at customer's request. No material change to load.	MSOR2P2	481.70	529.87

EDS PRICE SCHEDULE - 2008/09

NETWORK PRICES FOR STANDARD EXCLUDED DISTRIBUTION SERVICES - AFTER HOURS/ANYTIME											
Service Information			General			No CT			CT		
Class	Service	Service Description	Product	Price (exc GST)	Price (inc GST)	Product	Price (exc GST)	Price (inc GST)	Product	Price (exc GST)	Price (inc GST)
Unmetered Supply	Unmetered Supply Connection - connection point not available	Connection of unmetered approved equipment to the network where no connection point exists (i.e. underground mains) (category 2)									
Unmetered Supply	Unmetered Supply Disconnection	Recovery of connection to unmetered approved equipment									
Unmetered Supply	Temporary Unmetered Supply	Temporary connection of unmetered approved equipment to an existing low voltage supply at a pole or an underground pillar, e.g. caravans, Defence Forces Recruiting, Blood Bank, etc.									

4. NON-STANDARD EXCLUDED DISTRIBUTION SERVICES

ENERGEX provides a variety of non-standard, variable priced services, including:

- Relocation of ENERGEX assets at customer request;
- Temporary LV service disconnection¹⁴;
- Temporary HV service disconnection¹⁵;
- Upgrade from Overhead service to Underground service;
- Provision of metering data above minimum regulatory requirements;
- Provision of load profile data where available;
- Coverage of low voltage mains;
- Provision of detailed design for customer requested extension;
- Specification Fees;
- Ratification of illegal connections;
- Emergency recoverable work;
- Conversion to aerial bundled cables;
- Provision of reactive power;
- Provision of higher standard MDP services; and
- Complex supply abolishment.

The above listed services are not considered standard due to the variance in the precise nature of the services being sought. A price will be provided to the customer and/or retailer on application. A description of the service provided is detailed in the table below.

The conditions, including time frames, upon which the requested service will be undertaken by ENERGEX will depend upon the type of work requested and will be subject to commercial negotiation between the parties.

¹⁴ This service is provided during business hours and on an after hours basis

EDS PRICE SCHEDULE - 2008/09

NON-STANDARD EXCLUDED DISTRIBUTION SERVICES DESCRIPTION				
Service Information			Business Hours	After Hours
			General	General
