Alternative Control Services Price List

1. INTRODUCTION

1.1. How Tariffs are derived for Alternative Control Services

The Australian Energy Regulator (AER), as the economic regulator, determines the amount of revenue Ergon Energy can earn in providing Alternative Control Services under Chapter 6 of the National Electricity Rules (Rules). The AER will only approve tariffs developed by Ergon Energy if they comply with Chapter 6 of the Rules.

1.2. Where Can More Information Be Obtained?

Ergon Energy publishes the following documents relating to network pricing for its Alternative Control Services:

- (a) An "Information Guide on Alternative Control Services" which assists external parties understand the basis on which Alternative Control Services pricing is set and approved by the AER; and
- (b) This "Alternative Control Services Price List" which sets out the prices for Fee Based and Street Lighting Services and indicative prices for Quoted Services for the 2010-11 financial year

Ergon Energy is also required to submit a Pricing Proposal to the AER each regulatory year as part of the annual pricing approval process. This document provides additional guidance on the compliance requirements of Chapter 6 of the Rules, and how Ergon Energy's prices for its Alternative Control Services meet the requirements of the Rules.

Copies of the abovementioned documents are available on the Ergon Energy web site at:

www.ergon.com.au/contractors,-suppliers--and--developers/electricity-distribution-pricing-methodologies/network-tariffs

1.3. Changes from Release 1 of the Alternative Control Services - Price List 2010-11

The Alternative Control Services- Price List 2010-2011 Release 2 has been updated to include the Queensland Government approved rates for services listed under Schedule 8 of the Electricity Regulations 2006 published on 18th June 2010.

1.4. How To Contact Ergon Energy

Network users and retailers who are uncertain about the network pricing process or their particular circumstances are encouraged to contact us for assistance.

2. TARIFF CLASSES

A list of Ergon Energy's tariff classes and corresponding product codes for its Alternative Control Services are set out in the table below.

Table 1: Tariff Classes and Product Codes

Tariff Class	Network Tariff Codes
ACS - Fee Based Services (urban/short rural)	DEENBHU, DEENBHS, REENBHU, REENBHS, REDDBHU, REDDBHS, REINSPU, REINSPS, SUPABOLU, SUPABOLS, TBSSPU, TBSSPS, TBSMPU, TBSMPS, SFRBHU, SFRBHS, WTVU, WTVS, WTVTU, WTVTS.
ACS - Fee Based Services (long rural/isolated)	DEENBHL, DEENBHI, REENBHL, REENBHI, REDDBHL, REDDBHI, REINSPL, REINSPI, SUPABOLL, SUPABOLI, TBSSPL, TBSSPI, TBSMPL, TBSMPI, SFRBHL, SFRBHI, WTVL, WTVI, WTVTL, WTVTI.
ACS - Quoted Services	As Quoted; or CHTARIFU, CHTARIFS, CHTARIFL, CHTARIFI, CHTSRAU, CHTSRAS, CHTSRAL, CHTSRAI, DEENAHU, DEENAHS, DEEN AHL, DEEN AHI, MOVEMTRU, MOVEMTRS, MOVEMTRL, MOVEMTRI, RMMTRU, RMMTRS, RMMTRL, RMMTRI, MTRCKRDU, MTRCKRDS, MTRCKRDL, MTRCKRDI, MTRTESTU, MTRTESTS, MTRTESTL, MTRTESTI, MTTSTCTU, MTTSTCTS, MTTSTCTL, MTTSTCTI, OHUU, OHUS, OHUL, OHUI, POASVU, POASVS, POASVL, POASVI, POATVU, POATVS, POATVL, POATVI, REENAHS, REEN AHL, REEN AHI, REEN AHU, RMLDCRLU, RMLDCRLS, RMLDCRLL, RMLDCRLI, MTRREPU, MTRREPS, MTRREPL, MTRREPI, SPMTRRDU, SPMTRRDS, SPMTRRDL, SPMTRRDI, SFRAHU, SFRAHS, SFRAHL, SFRAHI.
ACS - Street Lighting Services – East	East - Major, East – Minor
ACS - Street lighting Services – West	West – Major, West – Minor
ACS - Street lighting Services – Mount Isa	Mt Isa – Major, Mt Isa - Minor

2.1. Assignment and Re-Assignment of Customer to Tariff Classes

The AER requires Ergon Energy to comply with the procedures for assigning or reassigning customers to tariff classes as per the requirements set out in its Final Distribution Determination.

Assignment or reassignment of customers to Ergon Energy's tariff classes can occur as a result of:

- Large customers requesting a new connection to the network;
- Street lighting customers requesting installation of a new street light, or gifting a new street light to Ergon Energy;
- New service orders being raised as a result of a request for service by either a customer and/or retailer;; or
- Requests for a review of the assigned tariff class by either a customer and/or retailer.

2.2. Notification of Assignments and Reassignments to Tariff Classes

Ergon Energy notes that the tariffs for Alternative Control Services are allocated to tariff classes in accordance with the AER's classification of services, as set out in Appendix A of the AER's Final Distribution Determination. As such, customers and retailers essentially assign themselves to a tariff class by selecting the service that they require. Therefore, written notification of the tariff class is not provided to the customer or the retailer.

A customer or retailer may request further information relating to a particular tariff class assignment or reassignment by contacting Ergon Energy (see section 1.3).

2.3. Review of a Customer's Assigned Tariff Class

Ergon Energy does not reassign customers to tariff classes without careful review and adequate justification. Ergon Energy uses the following range of criteria to assign new customers to a tariff class or to review the current assignment of customers to tariff classes for its Alternative Control Services:

- Fee Based Services – based on the:
 - o Type of service requested by either a customer and/or retailer; and
 - o Type of feeder to which the customer is connected (i.e. urban, short rural. long rural or isolated);
- Quoted Services – based on the:
 - o Type of service requested by either a customer and/or retailer; and
- Street Lighting Services – based on the:
 - o Type of service requested by either a customer and/or retailer; and
 - o Customer's geographical location or pricing zone (i.e. East, West or Mount Isa).

The following general requirements apply to the review and amendment of a customer's tariff class assignment for Alternative Control Services:

- Any change in an assigned tariff class will only proceed upon the approval by Ergon Energy. Ergon Energy will make its determination having regard to its Alternative Control Services Information Guide, its Tariff Class Reassignment Criteria (as set out above), the AER's Final Distribution Determination and any applicable law;

- Requests should be made by the customer, and are preferably made to Ergon Energy through the customer's retailer. Requests for review of a tariff class should be emailed to Network Pricing (see section 1.3).

2.4. Objections to a Tariff Class Assignment or Reassignment

If a customer or a retailer raises an objection to a tariff class assignment or reassignment, Ergon Energy will make every effort to investigate and address the customer's or retailer's concerns when the customer or retailer firsts contacts Ergon Energy.

In the first instance, the customer or retailer should contact Network Pricing via e-mail (see section 1.3) requesting a review of Ergon Energy's proposed tariff class assignment or reassignment.

Ergon Energy will endeavour to inform the customer or the retailer of the outcome of its review, including a reason for its decision within 5 business days of receiving such a request.

If the customer or the retailer is not happy with the outcome from this review, the objection can be escalated to the Manager Regulatory Affairs – Tariff Strategy. The customer or the retailer can request an objection to be escalated by contacting Network Pricing via e-mail (see section 1.3). The Manager Regulatory Affairs – Tariff Strategy will advise the customer or the Retailer of the outcome of an escalated objection as soon as practical.

If Ergon Energy is unable to resolve the objection to the customer's satisfaction, the customer can refer the matter to the AER for resolution via the dispute resolution process available under Part 10 of the National Electricity Law.

3. FEE BASED AND QUOTED SERVICES PRICE LIST

Ergon Energy Corporation Limited Fee Based and Quoted Services Price List for 2010-11								
Ref	Service	Service Description	Product Codes				Price	
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl
New Connections								
1	New connection - temporary connection in permanent position	Connection of supply to a meter location that is permanent	No Charge				Nil	
2	New connection - permanent		No Charge				Nil	
3	Temporary Builders Supply, not in permanent position- single phase metered - business hours	Connection of a single phase supply to a meter location that is not permanent	TBSSPU	TBSSPS	TBSSPL	TBSSPI	\$ 326.10	\$ 358.71
4	Temporary Builders Supply not in permanent position - multi phase metered - business hours	Connection of a multi phase supply to a meter location that is not permanent	TBSMPU	TBSMPS	TBSMPL	TBSMPI	\$ 326.10	\$ 358.71
5	Re-test at customer's installation during business hours	Customer has submitted Form A and the Retailer has issued a Service Order Request, but installation fails test and cannot be connected, requiring a re-test of the installation - business hours	REINSPU	REINSPS	REINSPL	REINSPI	\$ 296.40	\$ 326.04
6	Large Customer Connections	New large network users (ICC, CAC & EG customers) connecting after 1 July 2010	As Quoted				POA	
Re-energisations								
7	Re-energisation during business hours not after de-energisation for debt	Re-energisation commenced during business hours, not "after de-energisation for debt"	REENBHU	REENBHS	REENBHL	REENBHI	Nil	
8	Re-energisation during business hours after de-energisation for debt	Re-energisation commenced during business hours, after a disconnection for debt	REDDBHU	REDDBHS	REDDBHL	REDDBHI	\$ 36.20	\$ 39.82
9	Re-energisation after hours	Re-energisation commenced after business hours, not after disconnection for debt (i.e. non-urgent)	REENAHU	REENAHS	REENAHL	REENAHI	\$ 86.90	\$ 95.59
10	Re-energisation after business hours - after de-energisation for debt	Re-energisation commenced after business hours, after a disconnection for debt (i.e. non-urgent)	REDDAHU	REDDAHS	REDDAHL	REDDAHI	\$ 86.90	\$ 95.59
De-energisations								
11	De-energisation during business hours	De-energisation commenced during business hours, all instances	DEENBHU	DEENBHS	DEENBHL	DEENBHI	Nil	
12	De-energisation after hours	De-energisation commenced after business hours, all instances	DEENAHU	DEENAHS	DEENAHL	DEENAHI	Nil	
Additions and Alterations								
13	Install Hot Water	Install hot water meter and load control equipment	No Charge				Nil	
14	Installation of load control device	Installation of relay or time clock	No Charge				Nil	
15	Move the meter	Relocate meter from current position; no change of service point	MOVEMTRU	MOVEMTRS	MOVEMTRL	MOVEMTRI	POA	
16	Install Meter	Installation of a new meter except for a hot water meter; minimum regulatory requirements only	No Charge				Nil	
17	Provision, installation and maintenance of meters beyond minimum requirements at customer request	Provision of meters above the minimum regulatory requirements	As Quoted				POA	
18	Prepayment Meters at customer request	Installation of pre-payment meters on request - see Notified Prices for conditions.	As Quoted				POA	
19	Removal of a meter	Removal of a meter at retailer request; no re-wiring required	RMMTRU	RMMTRS	RMMTRL	RMMTRI	POA	
20	Removal of load control device	Remove load control relay or time clock	As Quoted				POA	
21	Meter exchange at request of retailer	Like for like meter exchange, unless not allowed by regulation.	As Quoted				POA	
22	Relocation of point of attachment of service (single visit) - single/multi phase during business hours	De-energisation, followed by physical dismantling then reattachment of service and re-energisation. Typically one hour or less on site.	As Quoted				POA	
23	Relocation of point of attachment of service (two visits)- single/multi phase during business hours	De-energisation, followed by physical dismantling then reattachment of service and re-energisation	As Quoted				POA	
24	Temporary De-energisation single visit during business hours - no dismantling	Temporary de-energisation and re-energisation of supply at the service fuse to allow customer or contractor to work close - no dismantling of service required (i.e. no service line drop). Typically 1 hour or less on site	As Quoted				POA	

Ref	Service	Service Description	Product Codes				Price	
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl
	Additions and Alterations - continued							
25	LV Service line drop and replace in single visit during business hours - physical dismantling	Temporary de-energisation and re-energisation of supply to allow customer or contractor to work close - the service will be physically dismantled or disconnected (eg Overhead Service dropped). Typically 1 hour or less on site	As Quoted				POA	
26	HV Service line drop and replace in single visit during business hours	Temporary de-energisation and re-energisation of supply to allow customer or contractor to work close - High Voltage Switching and access is required.	As Quoted				POA	
27	HV Service line drop and replace in single visit after hours	Temporary de-energisation and re-energisation of supply to allow customer or contractor to work close - High Voltage Switching and access is required.	As Quoted				POA	
28	Temporary de-energisation two visits during business hours (same day)- no dismantling	Temporary de-energisation and re-energisation of supply at the service fuse to allow customer or contractor to work close - no dismantling of service required (i.e. no service line drop).	As Quoted				POA	
29	LV Service line drop and replace two visits during business hours (same day) - physical dismantling	Temporary de-energisation and re-energisation of supply to allow customer or contractor to work close - the service will be physically dismantled or disconnected (eg Overhead Service dropped).	As Quoted				POA	
30	LV Service line drop and replace two visits after hours (same day) - physical dismantling	Temporary de-energisation and re-energisation of supply to allow customer or contractor to work close - the service will be physically dismantled or disconnected (eg	As Quoted				POA	
	Special Meter Reads							
31	Special meter read	Off-cycle meter read, during business hours	SPMTRRDU	SPMTRRDS	SPMTRRDL	SPMTRRDI	\$ 31.00	\$ 34.10
32	Meter check read	Off-cycle meter read, during business hours	MTRCKRDU	MTRCKRDS	MTRCKRDL	MTRCKRDI	\$ 31.00	\$ 34.10
33	Meter final read	During business hours	No Charge				Nil	
	Meter Reconfiguration							
34	Change Controlled Load	Effect a switch between controlled load network tariffs	No Charge				Nil	
35	Change Time switch	Change to timeswitch setting	As Quoted				POA	
36	Change Tariff	Change to tariff, that requires meter reprogramming (except for controlled load timing changes)	As Quoted				POA	
37	Reprogram Card Meters	Attend and re-program card meters to reflect retail tariffs, outside scheduled visit	As Quoted				POA	
	Meter Investigation							
38	Meter tampering	On site inspection required to determine whether equipment tampering has occurred	No Charge				Nil	
39	Meter inspection	On site inspection required to check a reported or suspected fault	No Charge				Nil	
40	Meter test (whole current only)	Meter test by EECL for EECL whole current meters only - only available where meter installed and operational.	MTRTESTU	MTRTESTS	MTRTESTL	MTRTESTI	\$ 14.40	\$ 15.84
41	Meter test (CT/VT)	Meter test by EECL for EECL meters attached to a CT or VT only - only available where meter installed and operational.	MTTSTCTU	MTTSTCTS	MTTSTCTL	MTTSTCTI	\$ 14.40	\$ 15.84
	Supply Abolishment							
42	Supply Abolishment during business hours	Decommissioning of a NMI and associated metering. May be used where a property is to be demolished; supply is no longer required; an alternative connection point is to be used; or a redundant supply is to be removed	SUPABOLU	SUPABOLS	SUPABOLL	SUPABOLI	\$ 296.40	\$ 326.04
	Other Services							
43	Provision of service during business hours requiring one person crew	For example: safety observer, installation inspection, query tariff, revenue protection activity - business hours	As Quoted				POA	
44	Provision of service after hours, requiring one person crew	For example: safety observer, installation inspection, query tariff, revenue protection activity - after hours	As Quoted				POA	
45	Provision of service during business hours requiring two person crew	For example: tree trimming, switching - business hours	As Quoted				POA	
46	Provision of service after hours requiring two person crew	For example: tree trimming, switching - after hours	As Quoted				POA	

Ref	Service	Service Description	Product Codes				Price	
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl
Other Services - continued								
47	Wasted truck visit - one person crew	Service is not able to be completed after truck has left the depot. Includes: Retailer/customer cancels service order after truck has left the depot but before service order is completed; Crew is unable to access site to perform service order; or Customer has submitted Form A and the Retailer a Service Order Request, but the installation is not ready on arrival at site.	WTVU	WTVS	WTVL	WTVI	\$ 46.60	\$ 51.26
48	Wasted truck visit - two person crew	Service is not able to be completed after truck has left the depot. Includes: Retailer/customer cancels service order after truck has left the depot but before service order is completed; Crew is unable to access site to perform service order; or Customer has submitted Form A and the Retailer a Service Order Request, but the installation is not ready on arrival at site.	WTVTU	WTVTS	WTVTL	WTVTI	\$ 98.00	\$ 107.80
49	Provision of metering data above minimum requirements	For example: urgent delivery, summarisation of metering data etc	As Quoted				POA	
50	Provision of time of use metering data	Provision of half hourly data on request	As Quoted				POA	
51	Provision of historical metering data	Request for historical metering data prior to the previous 2 years, on request.	As Quoted				POA	
52	Restoration of supply required due to customer action, during business hours	For example: service fuse replacement or restoration of loss of supply caused by the customer's installation - business hours	SFRBHU	SFRBHS	SFRBHL	SFRBHI	\$ 296.40	\$ 326.04
53	Restoration of supply required due to customer action, after hours	For example: service fuse replacement or restoration of loss of supply caused by the customer's installation - after hours	SFRAHU	SFRAHS	SFRAHL	SFRAHI	POA	
54	Overhead service upgrade - no change to load		As Quoted				POA	
55	Underground service upgrade	For example change from single phase to multi phase and/or increase capacity	As Quoted				POA	
56	High Load Escort - network service	Request by customer to disconnect and reconnect to the distribution network and lift wires to allow a high load vehicle through the most appropriate corridor	As Quoted				POA	
57	Provision of Connection Services above mininum requirements	Customer requested increase in reliability or quality of supply beyond the standard	As Quoted				POA	
58	Tiger tails	Installation of covers on service lines	As Quoted				POA	
59	Conversion of aerial bundled cables	Conversion of separate aerial cables to bundled aerial cables.	As Quoted				POA	
60	Rectification of illegal connections	Repair works to re-establish a safe and legal connection	As Quoted				POA	
61	Emergency recoverable works	Customer requested services, or services performed as a result of customer action, that would not otherwise have been required for the efficient management of the network, or covered by another service	As Quoted				POA	
62	Subdivision Fees	Application fees associated with sub-divisions	As Quoted				\$ 799.60	\$ 879.56
63	Project Fees	Application fees associated with projects other than subdivisions - does not include large customer connections	As Quoted				\$ 799.60	\$ 879.56
64	Subdivision Fees	Fees associated with consideration of sub-division plans	As Quoted				POA	
65	Project Fees	Fees associated with consideration of projects other than sub-divisions	As Quoted				POA	

4. INDICATIVE PRICES FOR QUOTED SERVICES

The Australian Energy Regulatory (AER) requires Ergon Energy to publish examples of potential prices for Quoted Services. The following lists are **examples only**. The actual price for a Quoted Service will be determined at the time of enquiry and reflect the actual requirements of the service.

Service	2010-11	2010-11
	GST Exclusive	GST Inclusive
Removal / Relocation of Ergon Energy assets at customer request	\$ 26,206.52	\$ 28,827.17
Move point of attachment at customer's request	\$ 592.83	\$ 652.11
Tiger tails	\$ 308.07	\$ 338.88
Metering Data Provider services	\$ 135.36	\$ 148.90
Metering Data Provider services above minimum requirements	\$ 367.20	\$ 403.92
Change tariff	\$ 205.38	\$ 225.92
Change time switch	\$ 102.69	\$ 112.96
Removal of meter	\$ 197.61	\$ 217.37
Removal of load control device	\$ 197.61	\$ 217.37
Reprogram card meters	\$ 308.07	\$ 338.88
Exchange meter	\$ 296.41	\$ 326.05
Move meter	\$ 296.41	\$ 326.05
Provision of connection services above minimum requirements	\$ 657.65	\$ 723.42
Overhead service upgrade	\$ 494.02	\$ 543.42
Underground service upgrade	\$ 3,655.34	\$ 4,020.87
Provision, installation and maintenance of meters beyond minimum requirements at customer request	\$ 643.88	\$ 708.27
Prepayment meters at customer request	\$ 926.39	\$ 1,019.03
Temporary de-energisation and re-energisation	\$ 296.41	\$ 326.05
Attend loss of supply - not DNSP fault (after hours)	\$ 383.48	\$ 421.83
Emergency Recoverable works	\$ 985.40	\$ 1,083.94
Subdivision Fees	\$ 1,375.16	\$ 1,512.68
Project Fees	\$ 528.91	\$ 581.80
High Load Escort - lifting of lines	\$ 6,572.17	\$ 7,229.39
Rectification of illegal connections	\$ 513.45	\$ 564.80
Conversion of aerial bundled cables	\$ 613.58	\$ 674.94
Provision of service crew / additional crew	\$ 256.73	\$ 282.40
New Large Customer Connection – example 1	\$ 144,586.04	\$ 159,044.64
New Large Customer Connection – example 2	\$ 8,963,135.00	\$ 9,859,448.50
New Large Customer Connection – example 3	\$ 9,813,272.76	\$ 10,794,600.04

5. STREET LIGHTING SERVICE PRICES

As discussed in the Alternative Control Services Information Guide, the AER has classified street lighting as an Alternative Control Service. This means that from 1 July 2010 all street lighting customers will pay use of system charges via the Standard Control Service unmetered supply network tariff. In addition, for those street lights owned by Ergon Energy, customers will be charged an Alternative Control Services charge to recover separate costs associated with installing and maintaining street lighting assets, recovered as a daily street lighting charge as set out below.

Street Lighting Charges	2010-11	
	Fixed Charge (\$/day/light)	
	GST - Exclusive	GST - Inclusive
East - Major	0.84	0.924
East - Minor	0.50	0.550
West - Major	0.84	0.924
West - Minor	0.50	0.550
Mt Isa - Major	0.84	0.924
Mt Isa - Minor	0.50	0.550
