

## Network Tariff Codes

| ID for Retailer Transactions* | ESC-Approved | Description                                         |
|-------------------------------|--------------|-----------------------------------------------------|
| LVS1R                         | S1           | Low Voltage Small 1 Rate                            |
| WET2Step                      | S1WET        | Winter Economy Tariff                               |
| RCACKWTOU                     | RCAC         | Reverse Cycle Airconditioning kilo Watt Time of Use |
| LVS2R                         | S2           | Low Voltage Small 2 Rate                            |
| LVDed                         | Ded          | Dedicated                                           |
| LVM1R                         | M1           | Low Voltage Medium 1 Rate                           |
| LVM2R5D                       | M25          | Low Voltage Medium 2 Rate 5 Day                     |
| LVM2R7D                       | M27          | Low Voltage Medium 2 Rate 7 Day                     |
| UnMet                         | Unm          | Unmetered                                           |
| LVL2R                         | L2           | Low Voltage Large 2 Rate                            |
| LVL1R                         | L1           | Low Voltage Large 1 Rate                            |
| LVkWTOU                       | KW-TOU       | Low Voltage kilo Watt Time of Use                   |
| LVkWTOUH                      | KW-TOU-HOT   | "HOT" Low Voltage kilo Watt Time of Use             |
| LVkVATOU                      | L2-KVA       | Low Voltage Large kVA Time of Use                   |
| LVkVATOUH                     | L2-KVA-HOT   | "HOT" Low Voltage Large kVA Time of Use             |
| HVkvATOU                      | HV-KVA       | High Voltage kVA Time of Use                        |
| HVkvATOUH                     | HV-KVA-HOT   | "HOT" High Voltage kVA Time of Use                  |
| SubTkVATOU                    | ST22-KVA     | Sub Transmission kVA Time of Use                    |
| LVMIRDED                      | M1+Ded       | Combined - see separate descriptions above          |
| LVS1RDED                      | S1+Ded       | Combined - see separate descriptions above          |
| WETDEDM                       | S1WET+Ded    | Combined - see separate descriptions above          |
| WETDEDQ                       | S1WET+Ded    | Combined - see separate descriptions above          |

\* Meter Configurations sent by UED to Retailer.

(ie. The Network Tariff Code ID is Data Element 13 as per the Meter Configuration B2B Specification), etc.
