Time of Day and Season Definitions

Time of Day and Season Definitions

Time-Of-Day Definitions for Residential Time of Use Tariffs

The application of our rates to customers on residential time of use tariffs for 'Peak', 'Shoulder' and 'Off-peak' periods is based on the time periods detailed below.

During Eastern Standard Time (EST), and during Daylight Saving Time (DST):

Business Days

Peak: 1300-2000

Shoulder: 0700-1300 & 2000-2200

Off-peak: All other times.

	0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23

Off-Peak																								
Hours		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23

Non-business Days

Shoulder: 0700-2200

Off-peak: All other times.

[illegible]

Time-Of-Day Definitions for all Non-Residential Time of Use Tariffs

The application of our rates to customers on non-residential time of use tariffs for 'Peak', 'Shoulder' and 'Off-peak' periods is based on the time periods detailed below.

During Eastern Standard Time (EST), and during Daylight Saving Time (DST):

Business Days

Peak: 1300-2000
Shoulder: 0700-1300 & 2000-2200
Off-peak: All other times.

[illegible]

Non-business Days

Off-peak: All other times.

[illegible]

Season Definitions for all Time of Use Demand Tariffs

The following definition of three distinct Seasons applies to all time of use demand tariffs, for the purpose of charging demand each month, namely

Summer (**S**)

01 November, 00.00h to 31 March, 24.00h

Winter (**W**)

01 June, 00.00h to 31 August, 24.00h

Other Months (**O**)

01 September, 00.00h to 31 October, 24.00h

01 April, 00.00h to 31 May, 24.00h

Month	July	August	September	October	November	December	January	February	March	April	May	June
Summer					S	S	S	S	S			
Other			O	O						O	O	
Winter	W	W										W

For the financial year 2011/12, Endeavour Energy will maintain identical Summer and Winter demand rates.
