Price List for Alternative Control Services

1. INTRODUCTION

1.1. How Tariffs are derived for Alternative Control Services

The Australian Energy Regulator (AER), as the economic regulator, determines the amount of revenue Ergon Energy Corporation Limited (Ergon Energy) can earn and the prices that Ergon Energy can charge in providing Alternative Control Services under Chapter 6 of the National Electricity Rules (Rules). The AER will only approve tariffs developed by Ergon Energy if they comply with Chapter 6 of the Rules.

A number of Ergon Energy's Alternative Control Services are also further capped through Schedule 8 of the *Electricity Regulation 2006* administered by the Queensland Department of Energy and Water Supply (DEWS).

1.2. Where Can More Information Be Obtained

Ergon Energy publishes the following documents relating to pricing for its Alternative Control Services:

- (a) An "Information Guide for Alternative Control Services Pricing" which assists external parties understand the basis on which Alternative Control Services pricing is set and approved by the AER; and
- (b) This "Price List for Alternative Control Services" which sets out the prices for Fee Based and Street Lighting Services for the 2012-13 financial year.

Ergon Energy is also required to submit a Pricing Proposal to the AER each regulatory year as part of the annual pricing approval process. This document provides additional guidance on the compliance requirements of Chapter 6 of the Rules, and how Ergon Energy's prices for its Alternative Control Services meet the requirements of the Rules.

Copies of the abovementioned documents are available on the Ergon Energy web site at:

www.ergon.com.au/contractors.-suppliers--and--developers/electricity-distribution-pricing-methodologies/network-tariffs

1.3. How To Contact Ergon Energy

Customers and retailers who are uncertain about the pricing process for Alternative Control Services or their particular circumstances are encouraged to contact us for assistance:

Mail:
Manager Regulatory Affairs – Tariff Strategy
P O Box 1090
TOWNSVILLE Q 4810
Phone: 13 10 46
E-mail: netprice@ergon.com.au

2. FEE BASED AND QUOTED SERVICES PRICE LIST

A listing and description of Ergon Energy's Alternative Control Services by service type is provided in the table below.

Ref	Service	Service Description	Product Codes				Price		Service Requested By	Form "A" Required
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl		
New Connections										
1**	New connection - temporary connection in permanent position	Connection of supply to a meter location that is permanent	No Charge				Nil		Retailer	Yes
2**	New connection - permanent		No Charge				Nil		Retailer	Yes
3#	Temporary Builders Supply, not in permanent position- single phase metered - business hours	Connection of a single phase supply to a meter location that is not permanent	TBSSPU	TBSSPS	TBSSPL	TBSSPI	\$347.60	\$382.36	Retailer	Yes
4#	Temporary Builders Supply not in permanent position - multi phase metered - business hours	Connection of a multi phase supply to a meter location that is not permanent	TBSMPU	TBSMPS	TBSMPL	TBSMPI	\$347.60	\$382.36	Retailer	Yes
5	Re-test at customer's installation during business hours	Customer has submitted Form A and the Retailer has issued a Service Order Request, but installation fails test and cannot be connected, requiring a re-test of the installation - business hours	REINSPU	REINSPS	REINSPL	REINSPI	\$316.30	\$347.93		
6	Large Customer Connections	Negotiated network design and construction contracts which require design and construction of connection assets for major network customers classified as an Individually Calculated Customer (ICC), Connection Asset Customer (CAC) or an Embedded Generator (EG).	As Quoted				POA			
Re-energisations										
7	Re-energisation during business hours - not after de-energisation for debt	Re-energisation commenced during business hours, not "after de-energisation for debt"	REENBHU	REENBHS	REENBHL	REENBHI	Nil		Retailer	No
8#	Re-energisation during business hours - after de-energisation for debt	Re-energisation commenced during business hours, after a disconnection for debt	REDDBHU	REDDBHS	REDDBHL	REDDBHI	\$ 38.50	\$ 42.35	Retailer	No

Ref	Service	Service Description	Product Codes				Price		Service Requested By	Form "A" Required
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl		
9#	Re-energisation after hours	Re-energisation commenced after business hours, all instances	REENAHU	REENAHS	REENAHL	REENAHI	\$ 92.60	\$101.86	Retailer	No
De-energisations										
11	De-energisation during business hours	De-energisation commenced during business hours, all instances	DEENBHU	DEENBHS	DEENBHL	DEENBHI	Nil		Retailer	No
12	De-energisation after hours	De-energisation commenced after business hours, all instances	DEENAHU	DEENAHHS	DEENAHHL	DEENAHHI	Nil		Retailer	No
Additions and Alterations										
16**	Install Meter (Type 5-7)	Installation of a new meter except for a hot water meter; minimum regulatory requirements only. Includes the installation of a type 5-7 meter if required to accommodate an Inverter Energy System or to affect a switch to a time-of-use tariff.	No Charge				Nil		Retailer	Yes
13**	Install Hot Water	Install hot water meter and load control equipment	No Charge				Nil		Retailer	Yes
14**	Install load control device	Installation of relay or time clock	No Charge				Nil		Retailer	Yes
17	Provision, installation and maintenance of meters above minimum requirements	Provision of meters above the minimum regulatory requirements on request	AQMMBMR				POA			
18	Prepayment Meters at customer request	Installation of pre-payment meters on request - see Notified Prices for conditions.	AQPMCR				POA			
15	Move the meter (Type 5-7)	Relocate meter from current position and re-commission installation on request; no change of service point	MOVEMTRU	MOVEMTRS	MOVEMTRL	MOVEMTRI	POA		Retailer	Yes
19	Removal of a meter (Type 5-7)	Remove meter and re-commission installation on request; no re-wiring required	RMMTRU	RMMTRS	RMMTRL	RMMTRI	POA		Retailer	Yes
20	Removal of load control device	Remove load control relay or time clock on request	RMLDCRLU	RMLDCRLS	RMLDCRLL	RMLDCRLI	POA		Retailer	Yes
21	Exchange Meter (Type 5-7)	Like for like meter exchange on request, unless not allowed by regulation	MTRREPU	MTRREPS	MTRREPL	MTRREPI	POA		Retailer	Yes

Ref	Service	Service Description	Product Codes				Price		Service Requested By	Form "A" Required
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl		
22	Move point of attachment single visit during business hours - single/multi phase	De-energisation, followed by physical dismantling then reattachment of service and re-energisation. Typically one hour or less on site.	POASVU	POASVS	POASVL	POASVI	POA		Retailer	Yes
23	Move point of attachment two visits during business hours - single/multi phase	De-energisation, followed by physical dismantling then reattachment of service and re-energisation	POATVU	POATVS	POATVL	POATVI	POA		Retailer	Yes
54	Overhead service upgrade	For example change from single phase to multi phase and/or increase capacity	OHUU	OHUS	OHUL	OHUI	POA		Retailer	Yes
55	Underground service upgrade	For example change from single phase to multi phase and/or increase capacity	As Quoted				POA		Retailer	Yes
Special Meter Reads										
31#	Special meter read	Off-cycle meter read, during business hours	SPMTRRDU	SPMTRRDS	SPMTRRDL	SPMTRRDI	\$ 33.00	\$ 36.30	Retailer	No
32#	Meter check read	Off-cycle meter read, during business hours	MTRCKRDU	MTRCKRDS	MTRCKRDL	MTRCKRDI	\$ 33.00	\$ 36.30	Retailer	No
33**	Final Meter Read	During business hours	No Charge				Nil			No
Meter Reconfiguration										
34**	Change Controlled Load	Effect a switch between controlled load network tariffs	No Charge				Nil		Retailer	Yes
35	Change Time Switch	Change to time switch setting	CHTSRAU	CHTSRAS	CHTSRAL	CHTSRAI	POA		Retailer	Yes
36	Change Tariff	Change to tariff, that requires meter reprogramming (except for controlled load timing changes)	CHTARIFU	CHTARIFS	CHTARIFL	CHTARIFI	POA		Retailer	Yes
37	Reprogram Card Meters	Attend and reprogram card meters to reflect retail tariffs, outside scheduled visit	As Quoted				POA			
Meter Investigation										
38**	Meter tampering	On site inspection required to determine whether equipment tampering has occurred	No Charge				Nil		Retailer	No
39**	Meter inspection	On site inspection required to check a reported or suspected fault	No Charge				Nil		Retailer	No

Ref	Service	Service Description	Product Codes				Price		Service Requested By	Form "A" Required
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl		
40#	Meter Test (Type 5-7)	Meter test by EECL for EECL whole current type 5-7 meters only. Only available where meter installed and operational.	MTRTESTU	MTRTESTS	MTRTESTL	MTRTESTI	\$ 15.30	\$ 16.83	Retailer	No
41#	Meter Test (CT/VT)	Meter test by EECL for EECL meters attached to a CT or VT only. Only available where meter installed and operational.	MTTSTCTU	MTTSTCTS	MTTSTCTL	MTTSTCTI	\$ 15.30	\$ 16.83	Retailer	No
Supply Abolishment										
42	Supply Abolishment during business hours	Decommissioning of a NMI and associated metering. May be used where a property is to be demolished; supply is no longer required; an alternative connection point is to be used; or a redundant supply is to be removed	SUPABOLU	SUPABOLS	SUPABOLL	SUPABOLI	\$316.30	\$347.93	Retailer	Supply abolishment form required
Wasted Truck Visit										
47	Wasted truck visit - one person crew	Service is not able to be completed after truck has left the depot. Includes: Retailer/customer cancels service order after truck has left the depot but before service order is completed; Crew is unable to access site to perform service order; or Customer has submitted Form A and the Retailer a Service Order Request, but the installation is not ready on arrival at site.	WTVU	WTVS	WTVL	WTVI	\$ 49.80	\$ 54.78		

Ref	Service	Service Description	Product Codes				Price		Service Requested By	Form "A" Required
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl		
48	Wasted truck visit - two person crew	Service is not able to be completed after truck has left the depot. Includes: Retailer/customer cancels service order after truck has left the depot but before service order is completed; Crew is unable to access site to perform service order; or Customer has submitted Form A and the Retailer a Service Order Request, but the installation is not ready on arrival at site.	WTVTU	WTVTS	WTVTL	WTVTI	\$104.60	\$115.06		
Temporary De-energisation										
24	Temporary De-energisation single visit during business hours - no dismantling	Temporary de-energisation and re-energisation of supply at the service fuse to allow customer or contractor to work close - no dismantling of service required (i.e. no service line drop). Typically 1 hour or less on site	As Quoted				POA		Retailer	No
28	Temporary de-energisation two visits during business hours (same day) - no dismantling	Temporary de-energisation and re-energisation of supply at the service fuse to allow customer or contractor to work close - no dismantling of service required (i.e. no service line drop).	As Quoted				POA		Retailer	No
25	LV Service line drop and replace in single visit during business hours - physical dismantling	Temporary de-energisation and re-energisation of supply to allow customer or contractor to work close - the service will be physically dismantled or disconnected (e.g. Overhead Service dropped). Typically 1 hour or less on site	As Quoted				POA		Retailer	No

Ref	Service	Service Description	Product Codes				Price		Service Requested By	Form "A" Required
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl		
29	LV Service line drop and replace two visits during business hours (same day) - physical dismantling	Temporary de-energisation and re-energisation of supply to allow customer or contractor to work close - the service will be physically dismantled or disconnected (e.g. Overhead Service dropped).	As Quoted				POA		Retailer	No
30	LV Service line drop and replace two visits after hours (same day) - physical dismantling	Temporary de-energisation and re-energisation of supply to allow customer or contractor to work close - the service will be physically dismantled or disconnected (e.g. Overhead Service dropped).	As Quoted				POA		Retailer	No
26	HV Service line drop and replace in single visit during business hours	Temporary de-energisation and re-energisation of supply to allow customer or contractor to work close - High Voltage Switching and access is required.	As Quoted				POA		Retailer	No
27	HV Service line drop and replace in single visit after hours	Temporary de-energisation and re-energisation of supply to allow customer or contractor to work close - High Voltage Switching and access is required.	As Quoted				POA		Retailer	No
Service Provision										
43	Provision of service during business hours requiring one person crew	For example: safety observer, installation inspection, query tariff, revenue protection activity - business hours	As Quoted				POA			
44	Provision of service after hours, requiring one person crew	For example: safety observer, installation inspection, query tariff, revenue protection activity - after hours	As Quoted				POA			
45	Provision of service during business hours requiring two person crew	For example: tree trimming, switching - business hours	As Quoted				POA			
46	Provision of service after hours requiring two person crew	For example: tree trimming, switching - after hours	As Quoted				POA			
49	Provision of metering data above minimum requirements (Type 5-7)	For example: urgent delivery, summarisation of metering data etc	As Quoted				POA			
			9							

Ref	Service	Service Description	Product Codes				Price		Service Requested By	Form "A" Required
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl		
50	Provision of time of use metering data (Type 5-7)	Provision of half hourly data on request if available	As Quoted				POA			
51	Provision of historical metering data (Type 5-7)	Request for historical metering data prior to the previous 2 years, on request.	As Quoted				POA			
Restoration Services										
52	Restoration of supply required due to customer action, during business hours	For example: service fuse replacement or restoration of loss of supply caused by the customer's installation - business hours	SFRBHU	SFRBHS	SFRBHL	SFRBHI	\$316.30	\$347.93		
53	Restoration of supply required due to customer action, after hours	For example: service fuse replacement or restoration of loss of supply caused by the customer's installation - after hours	SFRAHU	SFRAHS	SFRAHL	SFRAHI	POA			
Other Customer Initiated Services										
56	High Load Escort	Request by customer to disconnect and reconnect to the distribution network and lift wires to allow a high load vehicle through the most appropriate corridor	As Quoted				POA		Customer	
57	Provision of connection services above minimum requirements	Customer requested increase in reliability or quality of supply beyond the standard	As Quoted				POA		Customer	
58	Tiger tails	Installation of covers on service lines	As Quoted				POA		Customer	
59	Conversion of aerial bundled cables	Conversion of separate aerial cables to bundled aerial cables.	As Quoted				POA		Customer	
60	Rectification of illegal connections	Repair works to re-establish a safe and legal connection	As Quoted				POA		Customer	

Ref	Service	Service Description	Product Codes				Price		Service Requested By	Form "A" Required
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl		
61	Other recoverable works - Removal/Relocation of Ergon Energy Assets	Removal, relocation or rearrangement of assets at customer request, that would not otherwise have been required for the efficient management of the network, or covered by another service.	As Quoted				POA		Customer	
66	Other recoverable works - Emergency Recoverable Works	Work carried out as a result of an emergency or third party action, that would not otherwise have been required for the efficient management of the network, or covered by another service. For example: repair of assets due to vehicle accident.	As Quoted				POA		Customer	
62	Subdivision Fees - Application Fee	Fees associated with assessing a customer's application requesting a connection be made between the Ergon Energy network and a subdivision. Includes subdivision works carried out by contractors and/or Ergon Energy.					\$853.50	\$938.85	Customer	
63	Project Fees - Application Fee	Fees associated with assessing a customer's application requesting a connection be made between the Ergon Energy network and the customer's installation. Applies to small customer connections only (i.e. customers classified as Standard Asset Customers (SACs)).					\$853.50	\$938.85	Customer	

Ref	Service	Service Description	Product Codes				Price		Service Requested By	Form "A" Required
			Urban	Short Rural	Long Rural	Isolated	GST Excl	GST Incl		
64	Subdivision Fees - Other	Other fees associated with services Ergon Energy provides in considering sub-division plans. Includes fees associated with specification and design and the auditing of design and construction.	As Quoted				POA		Customer	
65	Project Fees - Other	Other fees associated with services Ergon Energy provides in considering customer initiated projects. Includes application fees for major customer connections, and fees relating to specification and design and the auditing of design and construction.	As Quoted				POA		Customer	
** Note: These services are Standard Control Services, the costs of which are recovered through network charges billed to electricity retailers. These services have been included in the price list for completeness as they relate to standard service orders raised through usual B2B communication channels.										
# Rates listed for these services are rates applicable for the 2012-13 year through Schedule 8 of the <i>Electricity Regulation 2006</i> .										
► Note to Customers: If you have an electricity retailer other than Ergon Energy Queensland, you must contact them before submitting a request for one of the above services. A <i>Service Order Request</i> , which contains a Retailer Reference Number, will be raised by the electricity retailer and submitted to Ergon Energy. If your electricity retailer is Ergon Energy Queensland, you should contact the Ergon Energy National Contact Centre on 13 10 46 to discuss the work. All new/initial connections, metering changes or service alterations require a registered electrical contractor to complete and submit an Ergon Energy Form A.										

3. INDICATIVE PRICES FOR QUOTED SERVICES

Examples of potential prices for POA services are included in Ergon Energy's Pricing Proposal which is submitted to the AER each regulatory year. The actual price for a POA service will be determined at the time of enquiry and reflect the actual requirements of the service.

4. ACS – STREET LIGHTING SERVICE PRICES

As discussed in the Information Guide for Alternative Control Services Pricing, the AER has classified the installation, operation and maintenance of street lighting assets as an Alternative Control Service. This means that there are two types of ongoing distribution tariffs associated with street lights which Ergon Energy bills to retailers:

- **Unmetered Supply Network Tariff** – these charges recover costs associated with use of the distribution and transmission network to convey electricity to a street light installation (i.e. Standard Control Services).
- **Daily Street Lighting Charge** – these charges recover costs associated with the installation and maintenance of street lighting assets which are owned by Ergon Energy (i.e. Alternative Control Services – Street Lighting Services).

The Daily Street Lighting Charge which applies for the 2012-13 financial year is set out below.

Street Lighting Charges	2012-13	
	Fixed Charge (\$/day/light)	
	GST – Exclusive	GST - Inclusive
East – Major	\$0.93	\$1.02
East – Minor	\$0.55	\$0.61
West – Major	\$0.93	\$1.02
West – Minor	\$0.55	\$0.61
Mt Isa – Major	\$0.93	\$1.02
Mt Isa – Minor	\$0.55	\$0.61

Further information on Ergon Energy's Unmetered Supply Network Tariff is available in the Network Tariff Guide for Standard Control Services, published on Ergon Energy's website.

5. TARIFF CLASSES FOR ALTERNATIVE CONTROL SERVICES

A list of Ergon Energy's tariff classes and corresponding product codes for its Alternative Control Services are set out in the table below.

Table 1: Tariff Classes and Product Codes

Tariff Class	Network Tariff Codes
ACS - Fee Based Services (urban/short rural)	DEENBHU, DEENBHS, REENBHU, REENBHS, REDDBHU, REDDBHS, REINSPU, REINSPS, SUPABOLU, SUPABOLS, TBSSPU, TBSSPS, TBSMPU, TBSMPS, SFRBHU, SFRBHS, WTVU, WTVS, WTVTU, WTVTS.
ACS - Fee Based Services (long rural/isolated)	DEENBHL, DEENBHI, REENBHL, REENBHI, REDDBHL, REDDBHI, REINSPL, REINSPI, SUPABOLL, SUPABOLI, TBSSPL, TBSSPI, TBSMPL, TBSMPI, SFRBHL, SFRBHI, WTVL, WTVI, WTVTL, WTVTI.
ACS - Quoted Services	As Quoted; or AQMMBMR, AQPMCR, CHTARIFU, CHTARIFS, CHTARIFL, CHTARIFI, CHTSRAU, CHTSRAS, CHTSRAL, CHTSRAI, DEENAHU, DEENAHS, DEENAH, DEENAH, MOVEMTRU, MOVEMTRS, MOVEMTRL, MOVEMTRI, RMMTRU, RMMTRS, RMMTRL, RMMTRI, MTRCKRDU, MTRCKRDS, MTRCKRDL, MTRCKRDI, MTRTESTU, MTRTESTS, MTRTESTL, MTRTESTI, MTTSTCTU, MTTSTCTS, MTTSTCTL, MTTSTCTI, OHUU, OHUS, OHUL, OHUI, POASVU, POASVS, POASVL, POASVI, POATVU, POATVS, POATVL, POATVI, REENAH, REENAH, REENAH, REENAHU, RMLDCRLU, RMLDCRLS, RMLDCRLL, RMLDCRLI, MTRREPU, MTRREPS, MTRREPL, MTRREPI, SPMTRRDU, SPMTRRDS, SPMTRRDL, SPMTRRDI, SFRAHU, SFRAHS, SFRAHL, SFRAHI.
ACS - Street Lighting Services – East	East - Major, East – Minor
ACS - Street lighting Services – West	West – Major, West – Minor
ACS - Street lighting Services – Mount Isa	Mt Isa – Major, Mt Isa - Minor

5.1. Assignment and Re-Assignment of Customer to Tariff Classes

The AER requires Ergon Energy to comply with the procedures for assigning or reassigning customers to tariff classes as per the requirements set out in its Final Distribution Determination.

Assignment or reassignment of customers to Ergon Energy's Alternative Control Services tariff classes can occur as a result of:

- Large customers requesting a new connection to the network or an upgrade to their existing connection;
- Street lighting customers requesting installation of a new street light, or gifting a new street light to Ergon Energy;
- New service orders being raised as a result of a request for service by either a customer and/or retailer; or
- Requests for a review of the assigned tariff class by either a customer and/or retailer.

5.2. Notification of Assignments and Reassignments to Tariff Classes

Ergon Energy notes that the tariffs for Alternative Control Services are allocated to tariff classes in accordance with the AER's classification of services, as set out in Appendix A of the AER's Final Distribution Determination. As such, customers and retailers essentially assign themselves to a tariff class by selecting the service that they require. Therefore, written notification of the tariff class is not provided by Ergon Energy to the customer or the retailer.

Information regarding which service belongs to each Alternative Control Services tariff class is set out in Table 1: Tariff Classes and Product Codes.

A customer or retailer may request further information relating to a particular tariff class assignment or reassignment decision by contacting Ergon Energy (see section 1.3).

5.3. Review of a Customer's Assigned Tariff Class

Ergon Energy does not reassign customers to tariff classes without careful review and adequate justification. Ergon Energy uses the following range of criteria to assign customers to a tariff class or to review the current assignment of customers to tariff classes for its Alternative Control Services:

- Fee Based Services – based on the:
 - o Type of service requested by either a customer and/or retailer; and
 - o Type of feeder to which the customer is connected (i.e. Urban, Short Rural, Long Rural or Isolated);
- Quoted Services – based on the:
 - o Type of service requested by either a customer and/or retailer; and
- Street Lighting Services – based on the:
 - o Type of service requested by either a customer and/or retailer; and
 - o Customer's geographical location or pricing zone (i.e. East, West or Mount Isa).

The following general requirements apply to the review and amendment of a customer's tariff class assignment for Alternative Control Services:

- Any change in an assigned tariff class will only proceed upon the approval by Ergon Energy. Ergon Energy will make its determination having regard to its Information Guide for Alternative Control Services Pricing, its Tariff Class Reassignment Criteria (as set out above), the AER's Final Distribution Determination and any applicable law;
- Requests should be made by the customer, and are preferably made to Ergon Energy through the customer's retailer. Requests for review of a tariff class should be emailed to Network Pricing (see section 1.3).

5.4. Objections to a Tariff Class Assignment or Reassignment

If a customer or a retailer raises an objection to a tariff class assignment or reassignment, Ergon Energy will make every effort to investigate and address the customer's or retailer's concerns when the customer or retailer firsts contacts Ergon Energy.

In the first instance, the customer or retailer should contact Network Pricing via e-mail (see section 1.3) requesting a review of Ergon Energy's proposed tariff class assignment or reassignment.

Ergon Energy will endeavour to inform the customer or the retailer of the outcome of its review, including a reason for its decision within 5 business days of receiving such a request.

If the customer or the retailer is not happy with the outcome from this review, the objection can be escalated to the Manager Regulatory Affairs – Tariff Strategy. The customer or the retailer can request an objection to be escalated by contacting Network Pricing via e-mail (see section 1.3). The Manager Regulatory Affairs – Tariff Strategy will advise the customer or the retailer of the outcome of an escalated objection as soon as practical.

If Ergon Energy is unable to resolve the objection to the customer's satisfaction, the customer can refer the matter to the AER for resolution via the dispute resolution process available under Part 10 of the National Electricity Law.
