

Adjustment of 2001/02 Distribution Tariffs for TUoS Rebate - Effective 1 July 2001

ElectraNet SA advised ETSA Utilities of estimated rebates to its transmission network charges, effective from 1 July 2001.

ETSA Utilities will pass on the transmission rebates by applying a 7.06% reduction from 1 July 2001. The South Australian Independent Industry Regulator (SAIIR) has approved this pass-through.

For customers on franchise tariff arrangements, these charges are paid by the franchise retailer, AGL. For customers who have entered into contestable sale agreements with retailers, the network charge is likely to be paid by the retailer. However, depending upon the contractual arrangements between customer and retailer, there may be a pass-through of the network charge and the rebate to the customer.

The invoice that ETSA Utilities forwards to its customers (retailers) for network usage will continue to be based upon the total network charge payable. It will be determined by the use of a network price that is derived from the transmission and distribution charges published in the Electricity Pricing Order less transmission rebate, as set out in the attached set of prices. The rebate will not be shown individually on each invoice. GST has been added as a separate price component in the price list. Our invoices will be GST-inclusive invoices.

The rebate can be calculated by using the billing quantities specified on the invoice and the transmission rebate price component as set out in the attached set of prices.

When the transmission rebate is amended in the future, an amended price list will be forwarded to licensed retailers by ETSA Utilities. We expect a change in the rebate rate from 1 January 2002, subject to advice from ElectraNet SA.

If retailers require clarification on these invoicing matters, please contact the Manager Customer Service, Graeme Baker on (08) 8404 5163.
