

[Click here for further information on Network Tariffs at the UE web site.](#)

Schedule of Network Use of System Tariffs: 1 July 2000 (GST***** inclusive)
(With 0.25% Tax Savings, with 10% GST: Net increase of 9.75%****)

Network Use of System Tariff	Standing Charge (\$/year)	Peak Energy (c/kWh)	Off Peak Energy (c/kWh)	Demand (\$/kVA/year)	Minimum Chargeable Demand (kVA)
LV Small 1 rate block 1* - (LVS1R-block 1)	42.162	5.815			
LV Small 1 rate block 2** - (LVS1R-block 2)		5.815			
LV Small 2 rate - (LVS2R)	64.402	8.069	0.738		
LV Dedicated - (Ded)	28.771		0.691		
LV Medium 1 Rate - (LVM1R)	69.308	8.032			
LV Medium 2 rate - (LVM2R5D)	135.838	8.870	1.909		
LV Medium 2 rate 7d - (LVM2R7D)	135.838	8.713	2.042		
LV Unmetered - (Unmet)		8.221	1.105		
LV Large 2 rate (non Demand)*** - (LVL2R)	135.838	7.976	1.687		
LV Large 1 rate (non Demand)*** - (LVL1R)	69.308	5.299			
LV Large 2 rate KVA - (LVL2R.KVA)	3468.100	1.792	0.585	61.694	150.000
High Voltage KVA - (HV.KVA)	1843.800	1.267	0.564	41.797	1150.000
Subtransmission KVA (ST22.KVA)	1843.800	0.405	0.314	8.356	11100.000

* LV Small 1 rate Block 1 - Applies to first 4,080 kWh p.a. pro rated to the billing period.

** LV Small 1 rate Block 2 - Applies to the balance of kWh's.

*** LV Large non Demand tariffs apply only to customers previously assigned — to a LV Large tariff but consuming <400MWh p.a or <150kVA

**** GST calculated @ final determination of 9.75%.

Network Tariff Components:

- Standing Charge: Is the fixed charge to recover costs of assets dedicated to a customer.
- Demand Charge: The demand measures the power (kW or KVA). The monthly demand charge is based on the highest power delivered over 12 months to the end of the billing period.
- Peak Energy Charge: Cost of electricity transport during peak time periods.
- Off-Peak Energy: Cost of electricity transport during off-peak time periods.
